If you want to send us your advertisements in electronic form, please observe the following guidelines to ensure the published result best meets your wishes:

- All images embedded in the advertisement must have a minimum resolution of 300 dpi. If logos or illustrations designed in other programs are featured, it is necessary to ensure that all fonts have been converted into vectors and the correct overprint mode has been set.
- All images must be set in the CMYK colour format. It is ideal if you provide us with a PDF suited for pre-press purposes. PDF files must be compatible with Acrobat 5 (PDF 1.4).
- Full page is 210 x 297 mm (wide x tall)
- For all advertisements to be cut, a 3 mm bleed is to be observed.
- The bleed area is to be overfilled by 3 mm.
- In order to keep file sizes as small as possible, embedded images should not be cropped by more than 10mm and must not be reduced by more than 60 percent.
- A coloured hard copy, or an accurate colour proof of the advertisement shall accompany the electronic data.
- ftp-transfer is available on request.
